

# Sum of Two Numbers

## Problem Description

Compute the sum of two integers  $a$  and  $b$ .

## Constraints

- Time Limit: 1 seconds
- Memory Limit: 128 MB

## Input Format

The input consists of two integers  $a$  and  $b$ .

## Output Format

Output a single integer representing the sum  $a + b$ .

## Sample Tests

Input	Output
1 2	3
5 10	15

## Notes

Ensure the inputs satisfy  $1 \leq a, b \leq 10^9$ .
